Chickens are OMNIVORES.
Chickens poop A LOT.
Chickens like to scratch A LOT
Chickens need a relatively small amount of SPACE to live if they are primarily free-range.
There are risks for PREDATORS no matter where you live.
Egg production requires CALCIUM.

Chickens aren’t FANCY
They will live in whatever you have on hand.

Keep your rooster/hen ratio in balance. If you do choose to have a rooster, a good rule of thumb is 1 rooster to every 8 or more hens.
